Subject description

This subject engages you in the power of narrative and visualisation as 'person-centred' methods for communication with visuals. You'll learn principles of effective visualisations and have hands-on experience in designing and evaluating different types of visuals. Also through investigating different narrative approaches to 'tell the story', you'll also hone your skills to succinctly and persuasively communicate descriptions of phenomena studied in the data set as well as confidently justify their findings.

Learning outcomes

Collapse all

Upon completion of this subject, graduates will be able to:

1. Evaluate the gap in knowledge between an audience and a message to be communicated.
2. Design effective ways to bridge this gap using effective representations of data pattern.

Learning and teaching activities

This subject is taught through self-study on Canvas, and online and in-person seminars. Subject content will be presented to students in a variety of formats (lecture slides, notes, videos, articles). The techniques to develop effective communication through visualisation will be taught through examples and problem sets. Students will be required to produce visualisations for specific topic using provided data.

Attendance requirement

Six 1.5-hour online sessions on Tuesday evenings and one face-to-face three-hour Saturday session on campus

UTS UNIVERSITY OF TECHNOLOGY SYDNEY

UTS acknowledges the Gadigal people of the Eora Nation, the Boorooberongal people of the Dharug Nation, the Bidiagal people and the Gamaygal people, upon whose ancestral lands our university stands. We would also like to pay respect to the Elders both past and present, acknowledging them as the traditional custodians of knowledge for these lands.
